EXAMINER'S ACTION

14. Other

Serial Number: 08/466,554

Art Unit: 1806

Part III DETAILED ACTION

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121: 1.

Group I. Claims 1-19, drawn to methods for measuring Aβ (x->41) and diagnosis of Alzheimer's disease, classified in Class 435, subclass 7.92.

Group II. Claims 20-22, drawn to an in vivo method for screening for compounds that alter the amount of A β (x->41) in the CSF, classified in Class 424 , subclass 9+.

Group III. Claims 23-32 and 36-41, drawn to methods for measuring tau and A β (x->41) for the diagnosis and monitoring of Alzheimer's disease and compositions therefore, classified in Class 435, subclass 7.92.

Group IV. Claims 33-35, drawn to drawn to an in vivo method for screening for compounds that alter the amount of AB (x->41) and tau in the CSF, classified in Class 424, subclass 9+.

The inventions are distinct, each from the other because of the following reasons: the methods of Groups I, II, III, and IV, as delineated above are each separate and distinct each from the other because they require different reagents, have different method steps, and have different final outcomes. Moreover, the methods of Groups I and III are drawn to in vitro methods of detection whereas the methods of Groups II and IV are drawn to in vivo methods of screening. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, as Serial Number: 08/466,554

Art Unit: 1806

shown by their different classification, restriction for examination purposes as indicated is proper.

- 2. A telephone call was made to John Storella on February 15, 1996 to request an oral election to the above restriction requirement, but did not result in an election being made.
- 3. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
- 4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
- 5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia A. Duffy, Ph.D. whose telephone number is (703) 305-7555. The examiner can normally be reached on Monday-Friday from 6:30 AM to 3:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marian Knode, can be reached at (703) 308-4311.

Any inquiry of a general nature or relating to the status of this general application should be directed to the Group receptionist whose telephone number is (703) 308-0196.

Papers relating to this application should be directed may be submitted to Group 1800 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The FAX number for Art Unit 1806 is (703) 308-4065.

Patricia A. Duffy, Ph.D. February 19, 1996
